

To Whom It May Concern:

I am writing to enthusiastically recommend Gleam Electrical, with whom we have partnered extensively as one of our key Electrical Contractors.

Gleam Electrical consistently demonstrates an unparalleled commitment to excellence in service to our clients. In recognition of their outstanding performance, they have been awarded the highest and most prestigious distinction we offer—the Platinum Award for Excellence—for the last few years.

Their operational agility is truly exceptional; they have demonstrated the ability to mobilize literally in one day and drive across the country to service our high-profile accounts, a capability we rely on heavily.

The quality of their workmanship is, quite simply, unparalleled. We find that we almost never have to request a return visit to correct a situation, which is a testament to the thoroughness and professionalism of their teams. Furthermore, Gleam has the capacity to scale their workforce quickly, capable of having anywhere from one to eighteen technicians on a jobsite at any given time, ensuring projects of any size are handled efficiently.

Gleam Electrical has proven to be reliable and trustworthy, especially during critical times when we needed support the most. I highly recommend Gleam Electrical for any and all electrical projects you may be considering.

Best regards,

Michael Kennedy

Services Manager, BAF.
